March 10, 2009

Reference: Main Street Water Main Cleaning and Lining Project
Phase II - Main Street from Washington Avenue to Elkins Lane
Borough of Milltown

Residents of North Main Street:

Dewcon, Inc. will be cleaning and cement mortar lining the existing cast iron water main located along Main Street in the Borough of Milltown. The project will also include the replacement of existing fire hydrants and valves. In order to perform the work required to complete this project, Dewcon has begun installing an above ground temporary by-pass system to supply your house with water while the water mains are worked on in your area. This bypass system will be connected to each residence and business along Main Street and the connecting streets. We will contact you within the next couple of weeks to coordinate the connection of the temporary water supply system to your home. Ramps will be installed over the temporary by-pass piping at driveways and walks. Temporary piping will be installed below grade at all roadway intersections. **Please use caution while walking and driving near the pipes and hoses.** We apologize for any inconvenience.

Please call Ryan Dewey at 1-908-296-0388 with any questions or concerns.

Sincerely,

Ryan Dewey
Vice President

Important Water Notice

Dear Resident,

We will be working to clean and cement mortar line the water mains in this area. In order to do this, we will have to hook up your house to the temporary above ground water lines. Therefore, it is imperative that we gain access to your water meter between the hours of 7:00 a.m. and 3:00 p.m. to make this hook up. It will be appreciated if you could make arrangements with us to gain access to your meter. Please call Ryan Dewey at 908-296-0388 between the hours of 7:00 a.m. and 5:00 p.m. to make an appointment as soon as possible. We will be shutting down the water mains shortly so time is of the essence.

Thank you for your cooperation and we apologize for the inconvenience.
